

**Player** seating

Steelcase

# Player®

The simple and durable Player chair is a convenient, comfortable, stackable chair for a multitude of uses. It's the perfect solution for high traffic areas like waiting rooms, classrooms, cafes or multi-purpose spaces. A true “team player”, its slim, quiet aesthetic fits in just about anywhere.

## Statement of Line

## Features:

**Pick your Player.** Available models include the Sled-Base, Four-Leg chairs and Four-Leg Stool, all available with or without arms. The Four-Leg chair stacks six-high on the floor and eight-high on a dolly. This chair version with arms is also available with casters for greater mobility (though it's not recommended for stacking ... or downhill races). All models are fully upholstered, including the outer back, and feature a reinforced steel frame for long-term durability.

**Enhance your Player.** Additional options include soft glides, a high back, thick seat, right or left-handed tablet arm that tilts up for easy entry and exit, under the seat bookrack, an alignment device that allows you to easily link and unlink rows of Player chairs, a removable ganging device that allows you to link the chairs more permanently and a dolly for storage and transportation.

**A certified Player.** The Player chair is available with the Scientific Certification Systems Indoor Advantage™ certification for indoor air quality in North America.
